

Management Software For Livestock Buildings

Communicate With Your Controls Using The Internet

-  **Controls** View your controls using the internet
-  **Graphs** Analyse your results with graphs
-  **Reports** Create and send report by email
-  **System View** Overview of system
-  **Security** Manage access and cameras
-  **Tools** Customize your FarmQuest

Example: graph screen

Userfriendly interface allows you to easily manage your equipment (Ventilation, scales, feed, water counter, access, etc...)

With Farmquest and the access control system, you are in control of your biosecurity.
